

PRODUCT DATA SHEET

Op-T-Lube DR 5001 High Performance Lubricant

General Description

DR 5001 is an advanced additive providing exceptional lubricity in a many drilling and completion operations. **DR 5001** is designed as a high performance lubricant ideal for reducing friction, drag and wall sticking. It has a high affinity to metal surfaces and will strongly adhere to drill pipe and collars. **DR 5001** will also eliminate differential sticking, torque and drag.

Properties

Form:	Liquid	pH (Neutrality):	4.0-6.0
Color:	Brown to Black	Specific Gravity:	0.926 ± 0.05
Odor:	Mild	Water Solubility:	Dispersible

Dosage Performance

Op-T-Lube DR 5001 Concentration	1%	2%	3%
% Friction Reduction	57.2%	79.5%	86.0%

Availability

DR 5001 is available in 20 liter (5 gallon) pails, 1000 liter (275 gallon) or 1250 liter (330 gallon) totes, or bulk.
